## Scratch Resistance

The extraordinary glazing fired under highly controlled conditions ensures strong resistance to scratches and abrasions.

## Dishwasher Safe

Advanced technology and process used for tempering ensures far greater resistance to impact and thermal shock to make Diva range safe to use in the dishwasher.

## Microwave Safe

All our range of products are completely safe to use in the microwave.

## Super Light

The European technology used to craft these products ensures much lighter and significantly thinner wares with almost zero surface porosity.

## Super white

Enhanced whiteness is an outstanding feature with the Diva collection. We use the finest quality of chemical components to enhance the subtle glow of opal, making it whiter than ever.

## 100% Hygienic

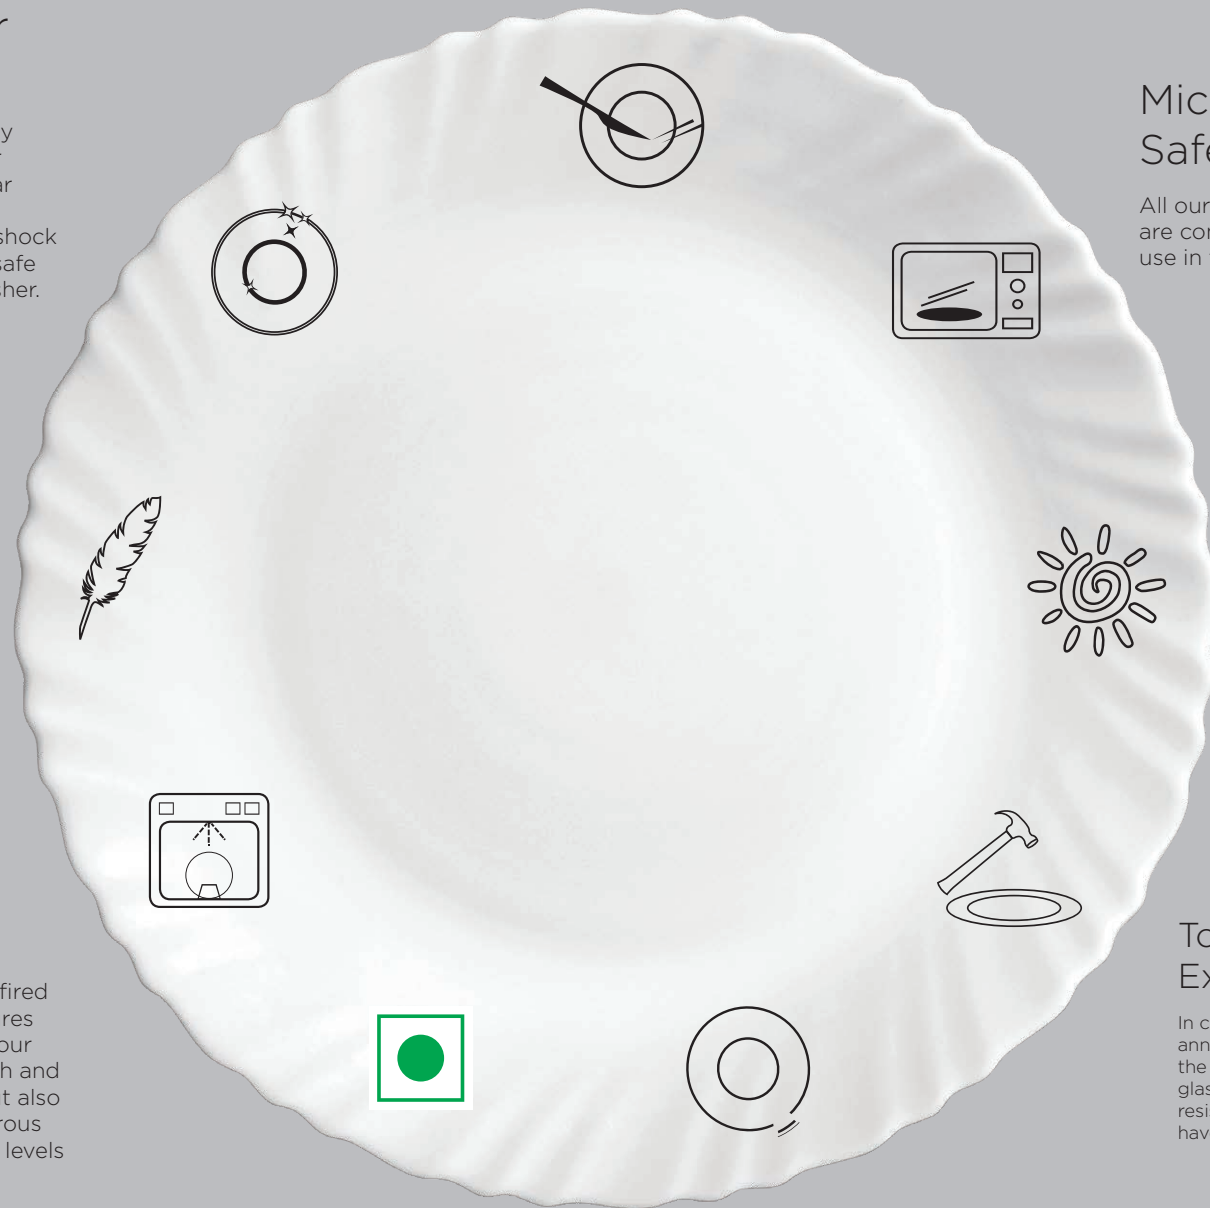

The special glaze fired at high temperatures not only gives all our products a smooth and polished finish, but also ensures a non-porous surface for higher levels of hygiene.

## Bone Ash Free

Our products are completely bone ash-free, meaning 100%-vegetarian.

## Break Resistant

In an unlikely event of breakage, Diva tempered opal glassware shatters into harmless fragments, in contrast to the annealed glassware.
